

**Name: ERI POLIBIENESTAR****Beschreibung**

ERI POLIBIENESTAR of the University of Valencia (<http://www.polibienestar.org>) is a research centre belonging to the University of Valencia and it is a referring group in Spain and in the Region of Valencia. ERI POLIBIENESTAR is specialized in research, development and innovation, management of social policies, health and social care and assessment in issues regarding: active ageing, disability and dependence.

Polibienestar is an interdisciplinary R+D research team specialized in research, innovation and social technology, design of welfare policies, technical advice and training in social policies. The mission of Polibienestar is *research in the field of creation and application of social technology and design, development and implementation of social policies to improve welfare and quality of life of society.*

ERI POLIBIENESTAR has experience in *advisory services* to the Spanish national government and private organizations on:

- sustainability
- viability
- efficiency
- social and economical rationality of social and health care resources, and their management and exploitation
- gender equality

ERI POLIBIENESTAR participates in several European projects (VI and VII Framework Programme; Daphne III) most of them regarding disability, ageing, gender equality and participates and coordinates some national projects funded by the government of Spain, evaluating the adequacy of new policies, services and technology for disabled people, and their impact in quality of life of the older people.

Projekte (mit Status)

- ERI POLIBIENESTAR participates in several European projects (VI and VII Framework Programme; Daphne III) most of them regarding disability, ageing, gender equality and participates and coordinates some national projects funded by the government of Spain, evaluating the adequacy of new policies, services and technology for disabled people, and their impact in quality of life of the older people.
